TOOL-BOX

CASSETTA PORTA ATTREZZI TOOL-BOX

- Elegante design personalizzabile a richiesta con logo tampografato
- Forma moderna ed ergonomica
- 100% materiale polipropilene riciclabile
- Due cerniere di chiusura + aggancio per lucchetto.
- Corpo resistente anche in condizioni di caldo e freddo

- *Elegant design, upon request it can be customized with your own log tampo printed*
- *Ergonomic and modern shape*
- *100% polypropylene recyclable*
- *2 fixing lock and on safety lock*
- *Strong body, cold and heat resistant*

Per ordinare le Controcuffie dotate di foglio istruzioni, aggiungere la descrizione CE dopo il codice Articolo
Add CE description after the item code to order the Shaft Cones with instructions

- Operating Instructions
- 1 - Damaged Guard not be used and should be immediately replaced.
 - 2 - Do not step on Cone Guards.
 - 3 - 3-Cone Guard must overlap with Shaft Guard of minimum 50mm.
 - 4 - Mounting: ensure both screws and washers are properly tightened onto flat face of the Guard.

- Norme d'uso per le controcuffie.
- 1 - Non utilizzare controcuffie danneggiate.
 - 2 - Non usare la controcuffia come predellino.
 - 3 - La controcuffia deve sormontare la protezione dell'albero cardanico di almeno 50mm.
 - 4 - Fissaggio controcuffia: viti e rondelle devono essere contenute nella superficie piana di fissaggio e non devono risultare allentate.

La SEAT PLASTIC è nata alcuni anni fa come produttrice di stampi ad iniezione e più recentemente ha creato al proprio interno un reparto di stampaggio che le consente di fornire un servizio globale: dalla progettazione del particolare alla realizzazione dello stampo allo stampaggio del prodotto finito.

Uno staff specializzato ed un parco macchine tra le più innovative del settore danno la possibilità alla SEAT PLASTIC di realizzare stampi in acciaio e in alluminio di piccole e grandi dimensioni. Le presse di cui dispone, che hanno una potenza tra le 30 e le 800 tonnellate, possono stampare ad iniezione particolari da 1 gr. a 3,8 Kg. in tutti i tipi di materiali termoplastici: nylon, resine acetaliche, abs, polietilene, polipropilene ecc. Il prodotto viene gestito su stazioni CAD-CAM ed è controllato in tutte le fasi di lavorazione per garantire una costante qualità del pezzo finito. L'elasticità produttiva, l'esperienza e la capacità di collaborare celermente con la clientela, fanno della SEAT PLASTIC il partner ideale nella produzione di complessi particolari di ogni tipo di stampi.

L'azienda è certificata ISO 9001 – ISO 14001. Dal 2007 è stato attrezzato un nuovo reparto per la produzione di articoli per l'alimentare prodotti conformemente alla direttiva BRC che regola il settore.

SEAT PLASTIC was founded several years ago as a Manufacturer of Injection Moulds: afterwards, a dedicated Molding Department was added allowing a full service to be provided to Customers.

SEAT PLASTIC is capable to assist Customers starting from the Design activity of the plastic Component, full Design and Engineering of the Moulds, Part Prototyping, Part Serial Production.

Dedicated Staff and Mechanical Machining Department support construction of both Steel and Aluminum Moulds of any size.

Range of Injection Molding Machines from 30 to 800 Tons allows production of Components from 1gr up to 3.8Kg, within different material options: Nylon, Acetal Resins, Abs, Polyethylene, Polypropylene, or others.

Manufacturing Molding Process is continuously monitored, plastic Parts are fully inspected with dedicated Equipments before being delivered to Customers.
